PROFESSIONAL SUMMARY

Aspiring Data Scientist currently completing the TripleTen Data Science Bootcamp, developing hands-on experience in Python, data analysis, and machine learning. Passionate about transforming data into actionable insights and combining strong communication skills with analytical thinking to solve real-world problems. Eager to contribute to mission-driven organizations through data-driven decision-making and innovation.

TECHNICAL SKILLS

Languages & Tools: Python, SQL, Jupyter Notebook, Git, GitHub, HTML
Libraries: Pandas, NumPy, Matplotlib, Scikit-learn
Techniques: Exploratory Data Analysis (EDA), Statistical Modeling, Data Cleaning, Machine Learning, Data Visualization
Soft Skills: Problem-solving, Collaboration, Communication, Critical Thinking

PROJECTS

1. Python Fundamentals & Jupyter Overview
 - Developed foundational Python scripts and practiced notebook-based data exploration.
 - Demonstrated understanding of data structures, control flow, and functions.
2. Exploratory Data Analysis (EDA)
 - Cleaned, transformed, and visualized datasets using Pandas and Matplotlib.
 - Identified trends and insights to inform potential business decisions.
3. Statistical Data Analysis
 - Applied hypothesis testing and descriptive statistics to uncover relationships within data.
 - Used probability distributions and correlation measures to support conclusions.
4. Software Development Tools
 - Collaborated through Git and GitHub to version-control code.
 - Built and debugged Python applications while documenting workflow for reproducibility.

EDUCATION

TripleTen Data Science Bootcamp (In Progress – Expected Completion 2026)

Coursework includes Python programming, data analysis, statistics, and machine learning.

Santa Monica College – Santa Monica, CA
Associate Coursework in Theater

ADDITIONAL EXPERIENCE

Customer Engagement & Sales Roles | 2017–2025

- Built strong relationships with clients and teammates in high-paced, data-informed environments.
- Used Excel and CRM tools to track performance metrics and analyze trends for improvement.
- Consistently exceeded goals by applying analytical thinking, communication, and adaptability.
